

SMD CHIP INDUCTOR LAB KITS

- Convenient A4 Format
- Easy to use
- Easy refill
- From 0402 size
- Wirewound and Multilayer
- Datasheets included

Magna Frequency Components now has available a series of lab kits for our range of chip inductors.

The kits use taped components for ease of use.

Refill strips are available when particular values need replenishing.

Below are listed the currently available kits but we are expanding the range to cover all types.

Samples of individual values are usually available from stock.

Stock Code	Size	Type	Inductance Range	Number of Values	Quantity per Value
